Portfolio Management Services (PMS)

PMS offered to high-net-worth individuals (HNIs) and institutional investors.

A licensed fund manager builds and manages a client's investment portfolio

The fund manager considers the client's risk appetite and investment goals

The fund manager invests in a variety of securities, including stocks, bonds, mutual funds

Alternative Investment Fund (AIF)

AIFs are privately pooled investment vehicles.

The AIF invests the money in assets outside of traditional markets.

The AIF may aim to improve the operations of the companies it invests in.

AIFs can offer potentially higher returns than traditional investments.

Sensex

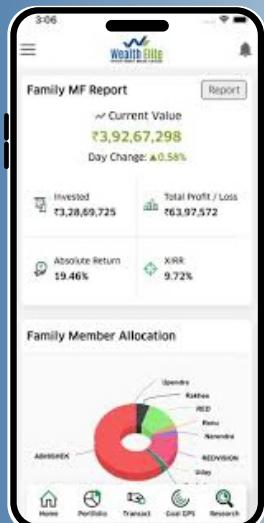

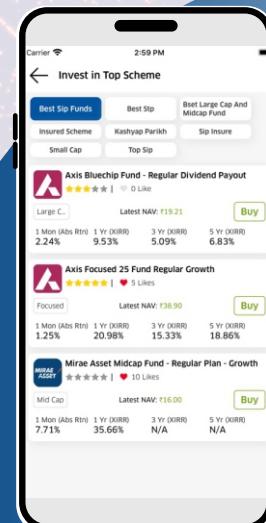

- Equity is held in electronic form in a Demat account.
- Diversification according to risk-taking capability
- You may get regular dividends from stocks
- Equity price depends on the company's financial performance and economy among other things.

VS

Gold

- Gold is a physical asset, which you can hold in hand.
- No diversification possible
- You have to sell the gold if you want to cash
- Gold's price rises when the market is volatile because of increased demand for a safe-haven asset.
